## Mileage registrations

The graph illustrates a positive correlation between vehicle age and mileage. The x-axis represents 'vehicle age' and the y-axis represents 'mileage'. A series of yellow data points are connected by a dark teal line. The line is solid for the first six points and becomes dashed for the last two points, suggesting a trend or extrapolation. The data points show that as the vehicle's age increases, the mileage also increases, with a steeper slope in the later years.
